Delta Ocean Pointe Resort  
45 Songhees Road, Victoria  
9:30am – 4:30pm**

**Attendees please register now for **free** by emailing our tradeshow registrar Mark Stitt at**

**[mark@accent-refrigeration.com](mailto:mark@accent-refrigeration.com)**

**Donations to ASHRAE research are gratefully accepted.**

# Exhibitors...

1) Compressor Systems Control	2) Trane NW	3) Trane NW
4) UVIC / Camosun	5) EH Price	6) EH Price
7) HSL Automation Ltd.	8) Con-Cur West	9) Con-Cur West
10) KVC Industries Ltd.	11) Critical Environment Technologies Canada Inc.	12) Viega LLC
13) Fortis BC	14) Smith Energy	15) Victaulic
16) Imaginit Technologies	17) Ecco Supply	18) Engineered Air
19) ACR Systems	20) Western Natural Gas	21) Accent Refrigeration
22) Reliable Controls	23) Equipco	24) Water Tiger
25) Aquatech Sales	26) Icon Agency	27) Refrigerative Supply
28) ESC / Island Temperature Controls	29) Andrew Sheret Ltd.	30) ASHRAE Registration

# ***Event Details:*** **Thursday Technical Sessions:** *(PDH recognized by APEGBC)*

## **10:00AM Bernard Doutre, P. Eng., Pacific Suite**

Compressor Systems Control CSC Group

*“CO2 Refrigeration Systems”*

*Use of carbon dioxide as a refrigerant has seen increasing interest in recent years. The CO2 system is the system of the future in the fight to reduce gas emissions. Most of the known matter that is destroying the Earth's ozone layer and contributing to global warming is derived from manmade compounds and chemicals with high global warming potentials and commonly known as greenhouse gases.*

## **12:00PM Lynn Mueller, Pacific Suite**

**Vice President of Product Development Free Energy International**

*Municipal Water Use in Cooling applications in Greater Victoria: "The Good, the Bad, and the Ugly".*

- A new rebate program
- Water use in cooling: Audits, Refrigeration.
- Making better use of our water: Rebate programs.
- An unfinished story: Once-through cooling ban? How much water should a cooling tower use in Victoria?
- A water vs. energy efficiency paradox. Reducing waste heat. Implications of wastewater treatment.

## **2:00PM Andrew Pape-Salmon, Pacific Suite**

**Director - Energy Efficiency Branch BC Ministry of Energy**

*“BC Government initiatives to support improved energy efficiency and greenhouse gas reductions”*

*Provide insight on future directions of the government to improve energy efficiency in the built environment and promote fuel switching to zero-carbon fuels. In addition to improving the affordability of buildings by reducing operating costs, energy efficiency efforts can improve occupant comfort, reduce emissions and promote regional economic development.*

# ***ASHRAE Dinner Meeting:***

Enjoy a fun Chapter dinner meeting with the exhibitors held on Wednesday evening April 6<sup>th</sup> at 6pm, at the Delta Ocean Pointe Resort featuring live-entertainment by the Cool Magic Dude and wine on every table. Please RSVP to Mark Stitt at [mark@accent-refrigeration.com](mailto:mark@accent-refrigeration.com) and register on-line to secure your seat.

## ***Participate & Enjoy:***

- Network with market leading companies.
- Top Strategies for Adapting in Today's Business Environment
- Door prizes with proceeds going to ASHRAE Research!
- Snacks & Refreshments
